

# EXTENDED WARRANTY

Services for MAN engines for yachts

## Extending your warranty – Gold Standard Premium

### Warranty

All MAN yacht engines are delivered ex works with a two-year warranty, which is valid for MAN's entire scope of supply.

### Warranty extension: Gold Standard

You will additionally receive a free-of-charge extension guarantee (Gold Standard) for a further three years for the main components (crankcase, crankshaft, camshaft, and oil sump).

The only requirement: The Shipyard must be able to demonstrate that the engine has been installed in line with MAN quality criteria. An additional advantage: You will benefit from optimized maintenance costs.

The warranty extension is subject to the MAN Terms and Conditions for Warranty. Wearing parts and consumables, such as air and oil filters, seals etc., and components that have replaced at regular maintenance intervals are excluded from the Gold Standard warranty extension.

## Warranty extension: Gold Standard Premium

In addition to the warranty ex works (two years) and the warranty extension (Gold Standard), you have the option of taking out additional coverage for yourself and your investment:

**Gold Standard Premium** gives you the option of extending the original warranty for three more years, meaning a total warranty period of five years. For the additional three years, the warranty can be concluded for another 2,500 or 4,000 operating hours. Your additional advantage compared with the Gold Standard extension: **All engine components are completely covered.**

### The benefits of your Gold Standard Premium extension at a glance:

The transferability of the warranty extension increases the resale value of your yacht

The Gold Standard Premium warranty extension covers all MAN components in your engine room, including cost-intensive components such as electronics and turbo chargers

You receive additional security beyond the Gold Standard extension

Your investment is protected against unplanned/expensive repairs (except for wear, improper use, or accidents)

All maintenance work and repairs are carried out by an authorised MAN service partner

You can be sure that all servicing and repairs will be performed exclusively using MAN Genuine Parts

The term, which can be either 2,500 or 4,000 operating hours, is adapted to your lifestyle and your needs

You remain flexible and can opt for the warranty extension within the first two years

	Warranty ex works	Gold Standard extension	Gold Standard Premium extension
Term	2 years	+ 3 years → <b>5 years in total</b>	+ 3 years → <b>5 years in total</b>
